Subsequently, the market noon rates are used. † Does not include refundable tax changes which were (in millions dollars) 70, 155, 219, 70, 27, 85, 287, 56, and 90 from 1943 to 1951 respectively. However, the net reduction of total municipal bonded debt has been (in millions) approximately 61, 53, 27, 43 and 5 in the years 1942 to 1946 respectively. Before the transfer to the Quebec Municipal Commission of certain school debt, the estimated net increases from 1947 to 1951 were 31, 78, 105, 133 and 153. (2) Before giving effect to the issue of \$112.2 million of Quebec Hydro debentures in connection with retirement of Montreal Light, Heat & Power stock. (3) Before giving effect to the issue of \$63.2 million of Quebec Municipal Commission bonds re transfer of the debt of certain school corporation.

(1) For the years 1945-50 inclusive the figures represent the metal content of concentrates produced from nickel-copper ores. For earlier years figures refer to refined metals recovered and the contents of concentrates sold.

(2) Excluding clay products and other structural materials.

(3) Includes Alberta production valued at the well head; value figures for Alberta prior to 1949 include some gas at a higher value than at the well head. Ontario production for 1950 and 51 valued at wholesale price rather than retail as in previous years.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(1) Includes exports of foreign produce. In the case of wheat, export figures are based on Board of Grain Commissioners rather than Customs data. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and the first 10 months of 1951 amounted to 61.8 and 99.6 million dollars respectively.

(2) Imports from the United Kingdom do not include articles imported for

the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(3) Consists of Erie, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Preliminary. (7) Estimates.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(1) Includes exports of foreign produce. In the case of wheat, export figures are based on Board of Grain Commissioners rather than Customs data. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and 1951 amounted to 56.8 and 109.1 million dollars respectively.

(2) Imports from the United Kingdom do not include articles imported for

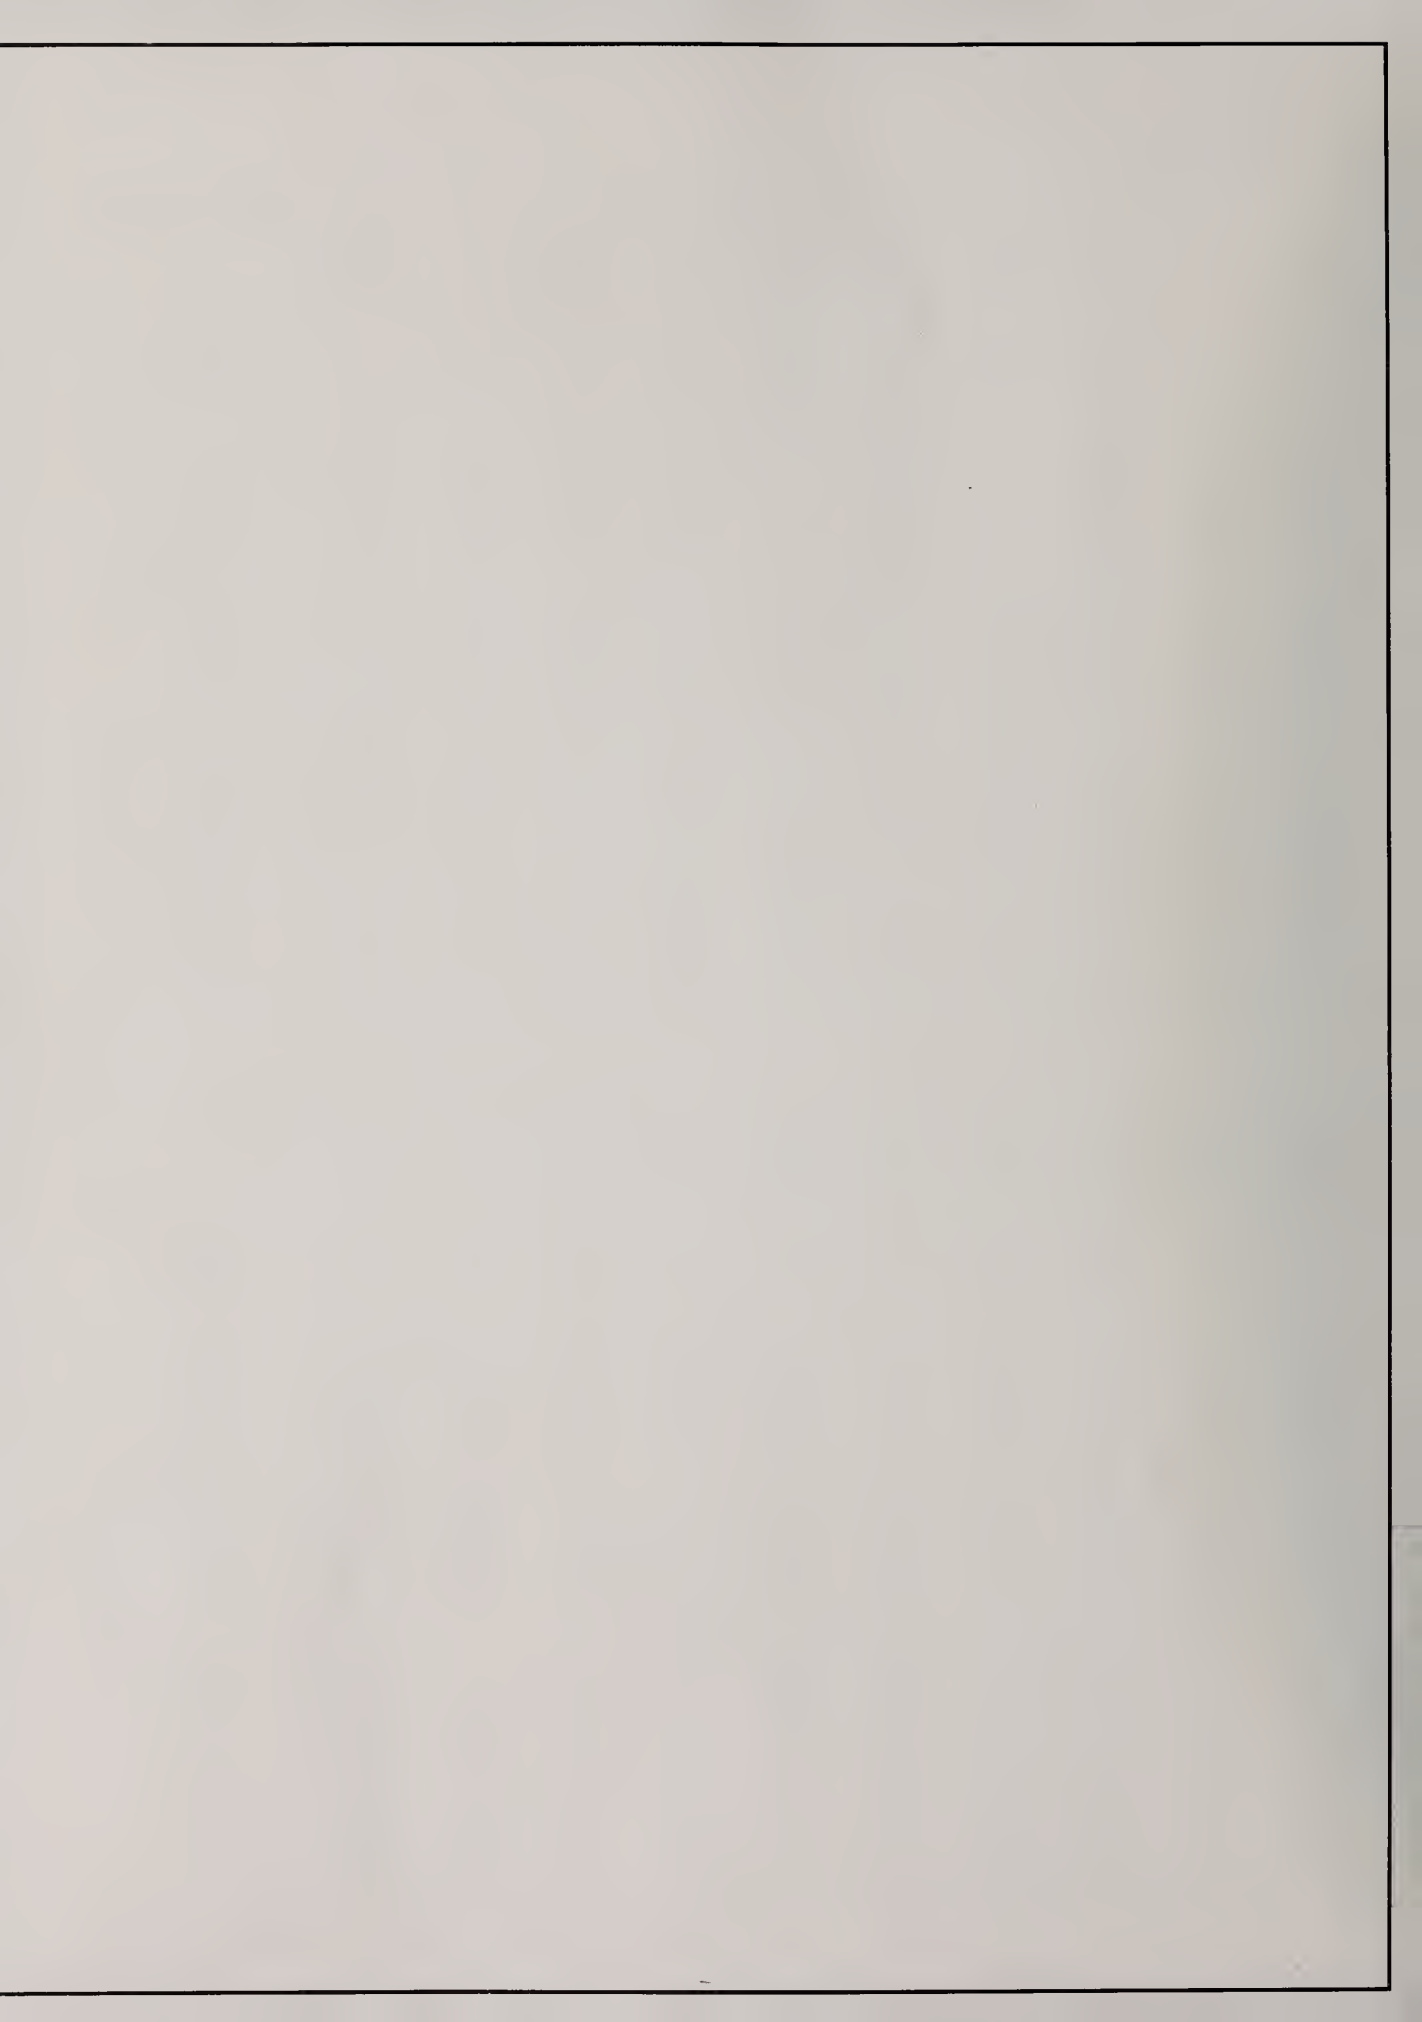

the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(3) Consists of Erie, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(7) Other Deposits with the Bank of Canada as shown in published month-end statements—i.e., excluding Government of Canada, chartered bank and foreign currency deposits.

(8) Estimated aggregate minimum quarterly balances in chartered banks' personal savings deposits in Canada plus non-personal notice deposits in Canada.

(9) Direct and guaranteed securities (including refundable taxes) at par. Direct debt includes both matured and unmatured issues outstanding, exclusive of sinking fund holdings; guaranteed debt is included on the basis of the total unmatured issues outstanding; Newfoundland debt assumed by the Government of Canada has been included since June 1949. Foreign

pay securities have been valued at official mid-rates of exchange to September 30, 1950, and at market rates thereafter.

(2) Beginning in the fiscal year ending Mar. 31, 1951, "other war and demobilization expenditure" is included in ordinary expenditure (largely in Dept. of Agriculture).
(3) Revenue item "Return on Investments" could be considered an offset to this.
(4) Includes balance sheet adjustments arising out of revaluation of currencies in Sept. 1949.
(5) Includes 16.1 paid to Alta. and Sask. re natural resources agreements.
(6) Includes 9.4 paid to Alberta re debt refunding plan.

(10) 4.5 of departmental total of 105.8 is shown under "other government-owned enterprises".
(11) Provision for reserves and write-offs of assets has been eliminated from "Financial Requirements", as the corresponding increases in the liability items and decreases in the asset items have not been shown. "Write-offs of non-active assets per contra" have been deducted from both "Financial

- Requirements" and "Sources of Financing".

He also provided for some lapsing of appropriations under certain of the items shown. The resulting net expenditure included in the total of 4,270, but not shown in the detailed figures, was 19.2. (See also footnote 7.)

- (1) Excludes firewood. Includes Newfoundland commencing in 1950.
 - (2) Output of central electric stations generated by water, less exports, plus power generated and used by the manufacturing and mining industries. Primary power calculated at the constant 1926 rate of 1.95 lbs. of coal per kilowatt hour plus secondary power sold by central electric stations calculated at its actual b.t.u. equivalent of 3,415 b.t.u. per kilowatt hour.
 - (3) Primary power is calculated at the coal equivalent, based on the average efficiency of central electric stations in the United States as reported by the Edison Electric Institute. Because of increased efficiency in the utilization of coal this average decreased from the equivalent of 1.95 lbs. of coal per kilowatt hour in 1926 to 1.24 lbs. in 1951. Secondary power sold by central electric stations is calculated at its actual b.t.u. per kilowatt hour.
 - (4) Includes anthracite coal, bituminous coal, sub-bituminous coal, lignite coal and imported coke. The unit heat values employed are: anthracite, 26,400,000 b.t.u. per ton; bituminous, 26,200,000 b.t.u. per ton; sub-bituminous and lignite, 20,000,000 b.t.u. per ton; coke, 20,000,000 b.t.u. per ton.
 - (5) For the years 1941 to 1949 inclusive, sum of sales by retail dealers, consumption by industry, railways and by coke and gas plants plus the amount used by the collieries and supplied to employees. For earlier years, the sum of sales by Canadian coal mines, colliery consumption, coal supplied to employees and coal used in making coke, etc., less tonnage bunkered and exported.
 - (6) For years 1941 to 1949 inclusive, sum of sales by retail dealers, consumption by industry and by railways: for earlier years imports for consumption excluding foreign coal re-exported and bunkered.
 - (7) The coal equivalent of the sum of gasoline, fuel and gas oils and kerosene estimated by the D.B.S. and converted to b.t.u.'s on the basis of 1 ton of coal equals 26,000,000 b.t.u., plus petroleum coke consumed as fuel calculated at the rate of 30,000,000 b.t.u. per ton.
 - (8) Sales and consumption by producers. The unit heat value employed is 1,075 b.t.u. per cubic foot.
 - (9) Including water power calculated at the yearly average coal equivalent.
- * Preliminary.

† Newfoundland figures included since joining Canada on March 31st, 1949.

(1) Includes items which provinces may place in capital account, such as rural hydro bonus, grants for construction of schools, municipal roads, hospitals and other institutions not provincially owned, and direct relief expenditures. Also for the purpose of comparison, certain items of revenue have been deducted from the corresponding expenditure. See footnotes (1) and (7) page 169.

(2) Includes Old Age Assistance payments (1951-52). Excludes pensions for the blind.

(3) Includes expenditures for health care and payments to hospitals under the Hospital Services Plans in Saskatchewan (1947-52) and British Columbia (1949-52).

(4) Composed largely of expenditures of general administrative departments. Administration cost of each function of government shown in this table has been charged to that function.

(5) Includes an amount for unpaid interest in Alberta for the years 1937-1950

(1) Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(2) Includes exports of foreign produce. In the case of wheat exports, figures are based on Board of Grain Commissioners' data rather than Customs' clearances. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and 1951 amounted to 56.8 and 109.1 million dollars respectively.

(3) Consists of Eire, India, Pakistan, Burma, Australia, New Zealand, Iceland,

Ceylon and Iraq. Egypt is included in the "All Other" category.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Imports from the United Kingdom do not include articles imported for the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(7) Estimates.

THE FOOTNOTES BELOW REFER TO TABLES ON PAGES 183 TO 188 INCLUSIVE

* The tabulation includes all those companies with 1941 assets over \$200,000 for which consistent reports were available from 1935-1951. The accounts of certain companies which were available in some or all of these years were not comparable throughout the period and had to be excluded. Since many of the companies are public, the number of individual companies included in the sample is actually a good deal larger than indicated. The material is, of course, subject to all the limitations and qualifications which apply to the bank accounting statistics.

† Figures are available on request for the years 1936-40 inclusive.

(1) For purposes of comparability, any special capital charges made against income account in company reports have been added back as well as "contingent" and "general" reserves. Special inventory reserves, whether shown by the company in operating expenses or as an adjustment to earned surplus, have been deducted in arriving at Net Operating Profit. For the Total 603 Companies the special inventory reserves amounted to 10.9, 5.8, 2.9, 4.2, 1.8, 2.5, 14.2, 1.7, 1.3, 6.3 and \$5.2, in the years 1941-51 respectively.

(2) Includes deferred development and depletion provisions where charged by the company. For the Total 603 Companies these amounted to 10.2, 9.7, 8.4, 8.4, 8.3, 7.7, 8.1, 9.4, 8.5, 9.4 and 9.6 in the years 1941-51 respectively.

(3) The Source and Use of Funds Statement is designed to show net cash received from all sources and paid out for all purposes; revaluations or purely bookkeeping transactions which affect items of the Balance Sheet particularly Plant, Property and Equipment, Preferred and Common Stock Outstanding and, in a few instances, Funded Debt, are not reflected in the Source and Use of Funds Statement.

(4) Includes amortization of bond discounts.

(5) Includes adjustments relating to tax accruals and other transactions of previous years.

(6) Special inventory reserves have been deducted.

(7) Reserves for depreciation and depletion have been deducted.

(8) Includes current accounts receivable from subsidiaries and fixed investment in subsidiaries less current and non-current accounts payable to subsidiaries.

(9) Includes bond discount and other deferred charges, deferred development, etc.

(10) Includes pension fund reserves, insurance reserves and advance payments on contracts (net) and government accounts (net).

(11) Bonds and mortgages outstanding less sinking fund.

(12) Includes contingent and general reserves, capital surplus and the refundable portion of the Excess Profits Tax.

(13) Includes the Refundable Portion of the Excess Profits Tax, amounting to 19.1, 32.0, 26.9, 25.7, 2.1 and .1 in the years 1941-47 respectively.

(1) Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(2) Includes exports of foreign produce. In the case of wheat exports, figures are based on Board of Grain Commissioners' data rather than Customs' clearances. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and 1951 amounted to 56.8 and 109.1 million dollars respectively.

(3) Consists of Eire, India, Pakistan, Burma, Australia, New Zealand, Iceland,

Ceylon and Iraq. Egypt is included in the "All Other" category.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

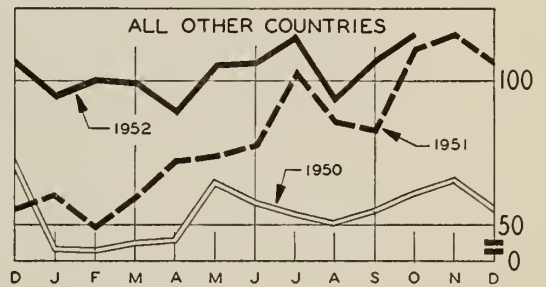

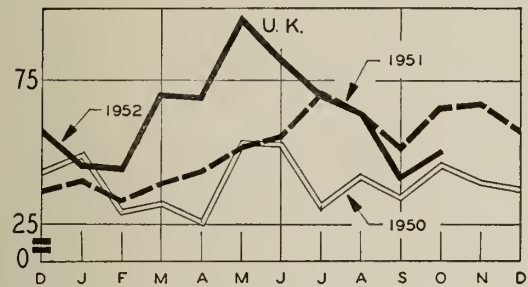

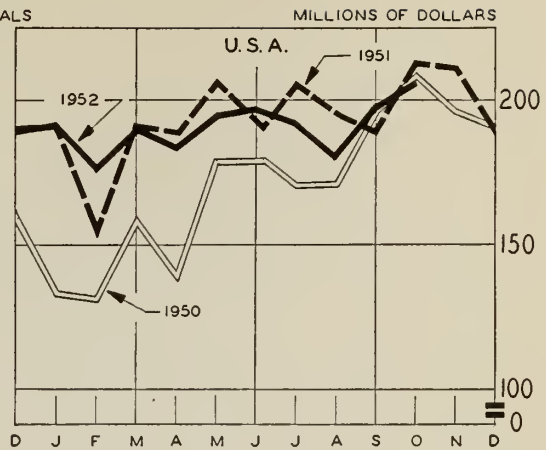

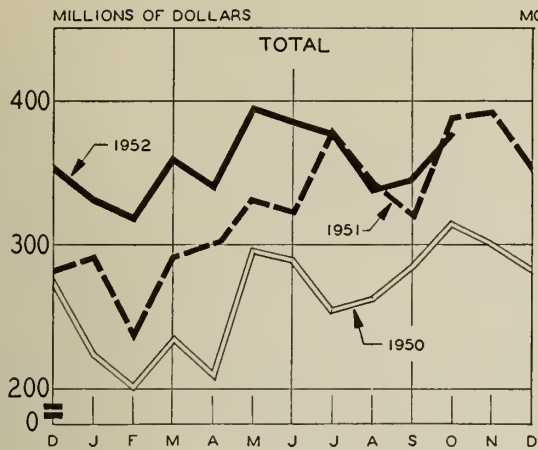

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Imports from the United Kingdom do not include articles imported for the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(1) Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(2) Includes exports of foreign produce. In the case of wheat exports, figures are based on Board of Grain Commissioners' data rather than Customs' clearances. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and 1951 amounted to 56.8 and 109.1 million dollars respectively.

(3) Consists of Eire, India, Pakistan, Burma, Australia, New Zealand, Iceland,

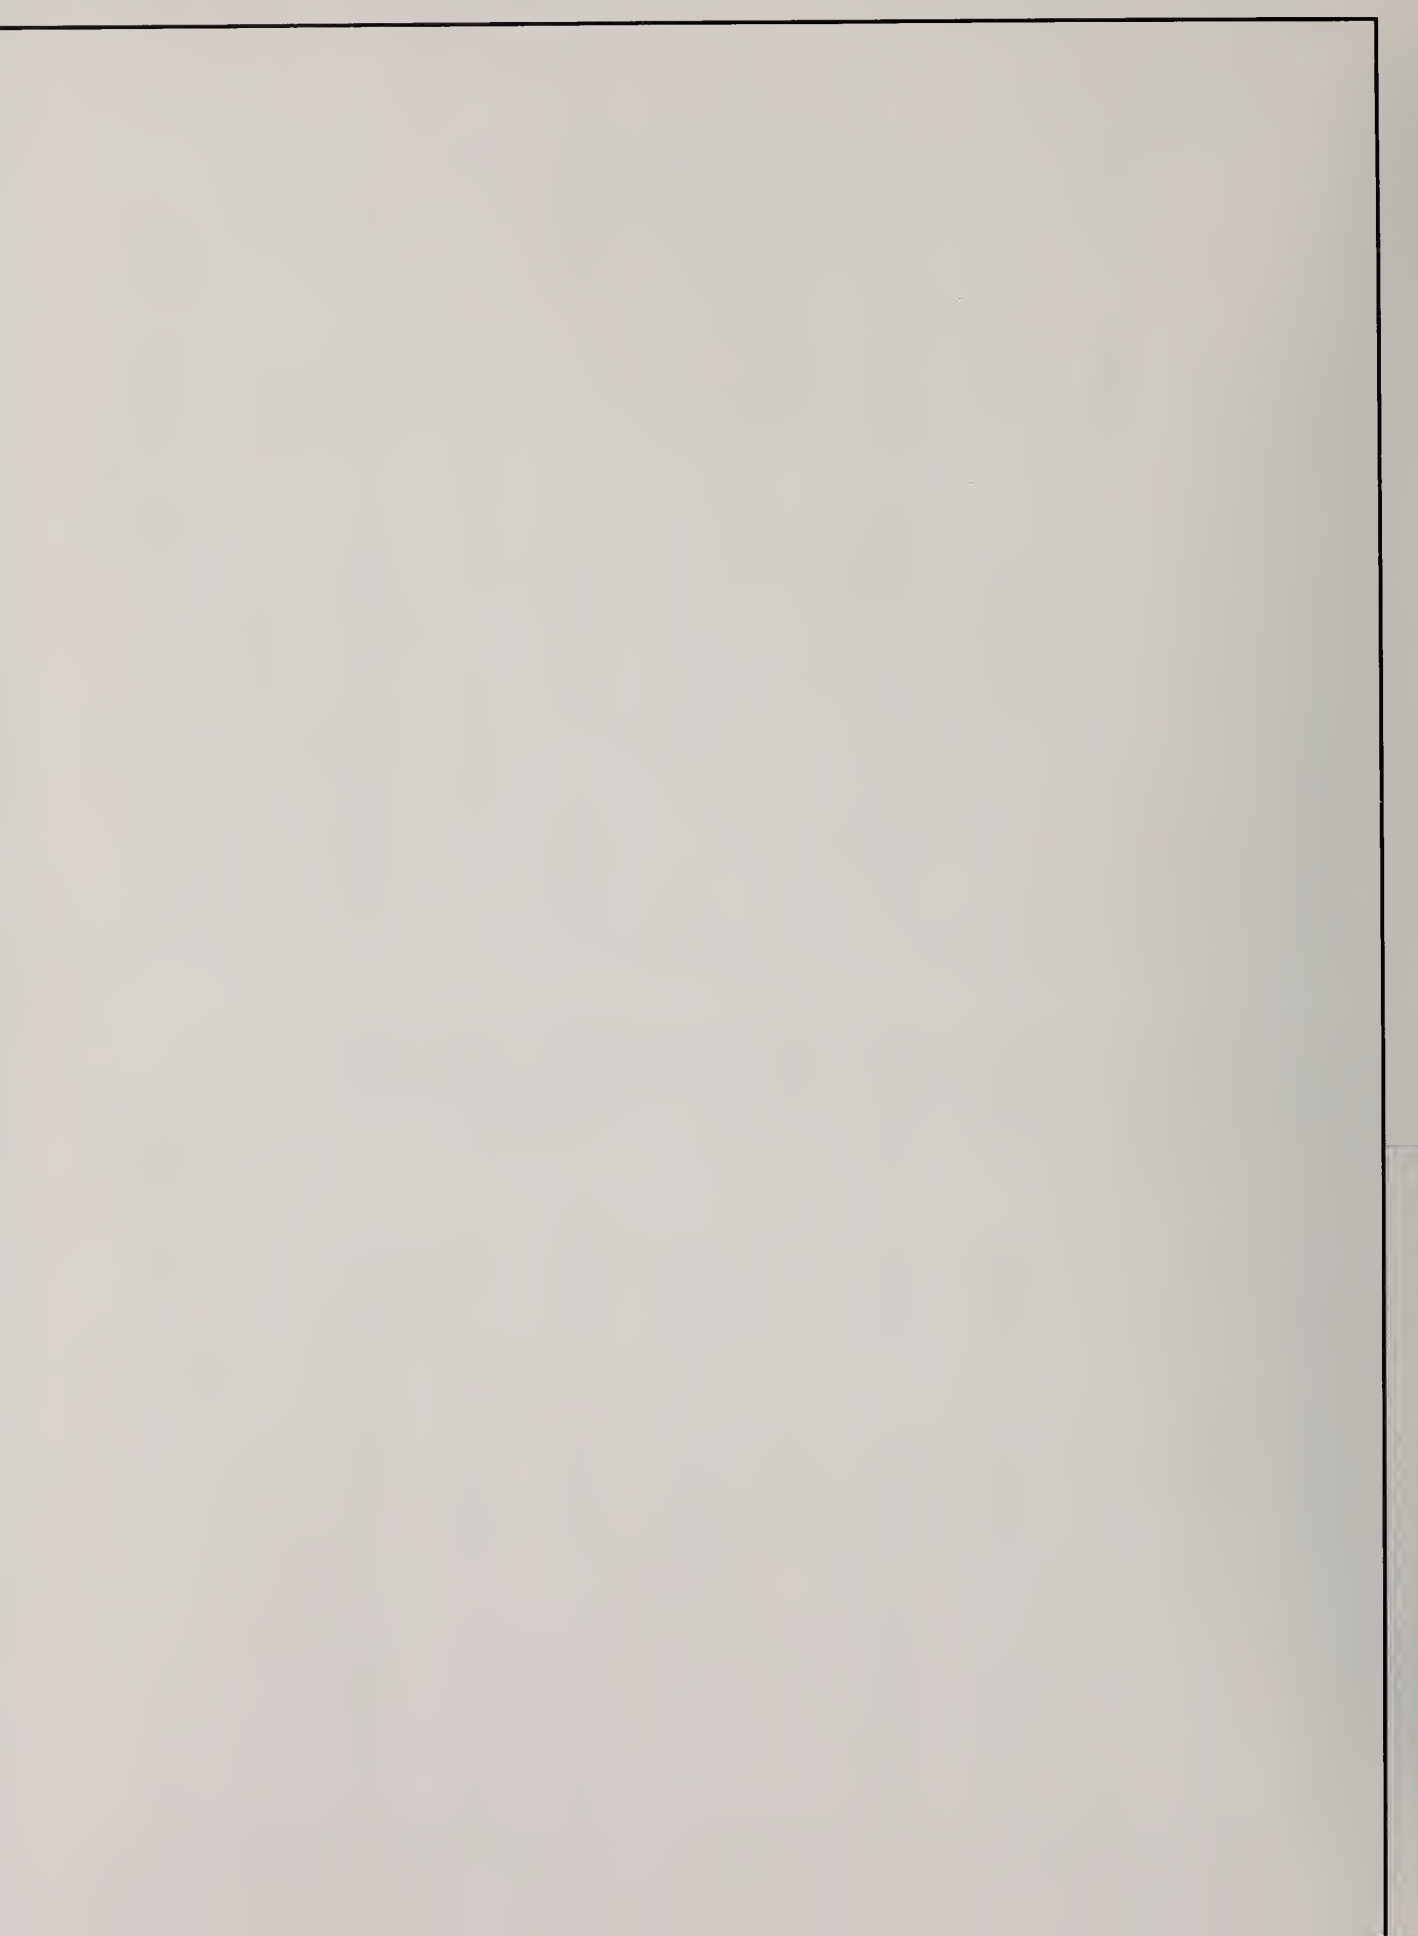

Ceylon and Iraq. Egypt is included in the "All Other" category.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

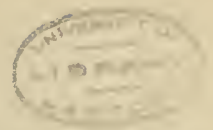

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Imports from the United Kingdom do not include articles imported for the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.
